INDEX

VOL. XXX, 1936-37.

Note.—In this volume two series of numbers are used for pagination, one being the sectional page number and the other the volume page number. The latter only is used in the Index. An asterisk (*) is an indication that German and French abstracts are given of those particular papers.

- Abducens palsy** following spinal anaesthesia, 1007
- Abortion**, criminal, intramural abscess of uterus following, 563
- Acne conglobata?** case of, 1388
- Acrosclerosis** and muscular wasting, poikiloderma with, 1334
- Actinomycosis** of lung, 876
- Active service**, fitness for, effect of aural conditions on, discussion on, 1528
- Adams, A. W.**—Renal pelvic epithelioma with massive calculi and no infection, 1075
Three renal tumours successfully removed from female children aged 3 months, 4½ years, and 14 years respectively, 449
- Adams, Stirk.**—Discussion on otitis media in early childhood, 1308
- Addison's disease**, ? case of, 1058
- Adeno-carcinomata** of kidney, five cases of, 463
- Adenoma** of bronchus (F. J. S. Gower), 673
sebaceum (Pringle's disease) with associated tumours of the nail-beds of the toes, 24
- Adenomyoma malignum**, case of, 563
- Air-conditioning**, carbon dioxide as an index of respiratory impurity, 1541
cooling power, 1543
effective temperature, 1543
measurement of air-supply, 1542
oxygen determination in, 1542
temperature and humidity, 1542
(ventilation conditions and their investigation), discussion on, 1541
in factories (C. W. Price), 1544
- Air-purification** and allergic conditions (E. M. Fraenkel), 1547
- Air-raid** precautions, with special reference to their medical aspects (H. S. Blackmore), 469
- Alimentary tract**, influence of displacements of adjacent organs and of tumours on, 1387
some of the less common lesions of, and special methods of investigation, and the influence of adjacent organs, discussion on, 1371
- Allen, H. W.**—Symmetrical follicular nevus, 370
- Allergic conditions**, air purification and (E. M. Fraenkel), 1547
- *Alston, J. M., and Brown, H. C.**—The epidemiology of Weil's disease, 741
- Alvaro, M. E.**—Transitory tremulous lens, 945
- Amentia**, familial cerebellar diplegia and retinitis pigmentosa, 849
- Anæmia**, aplastic, purpura and, 727
febrile, of obscure origin, 403
hypochromic, congenital heart disease, and peculiar facies, case of, 1189
- *Anaesthesia**, dental, vinyl anaesthesia for (V. Goldman), 891
in U.S.A. and Canada, impressions of, discussion, 937
spinal, neurological sequelæ of, discussion on, 1007
- Anæsthetic atmospheres**, carbon dioxide absorption from (R. M. Waters), 11
- Anæsthetics** for nose and throat operations, choice and technique of, discussion on, 923
- Anæsthetist**, the ideal structure of an operating theatre from the point of view of an (G. Edwards), 331
- Analgesia** during labour, self-induction of, new type of nitrous-oxide machine for (J. Chassar Moir), 1281
- Anderson, R. G., and Weber F. Parkes.**—A subcutaneous glomus tumour (Masson) in the little finger: clinical account, 196
- Aneurysm**, aortic, three cases of, 757
cirsoid, involving tongue and floor of mouth, 709
intracranial, traumatic, case of, 854
- Angina pectoris** treated by cardio-omentopexy, 762
- Angioma** of rectum, case of, 1221
serpiginosum, case of, 363
- Animal** and human diseases, epidemiology of (Sir F. Hobday), 835
- Animals** and man, purpuric conditions in, discussion on, 715
purpuric conditions in, 723
- Anthrax**, epidemiology of, 837
- Antiseptics**, urinary (including sodium and ammonium mandelate), discussion on, 501
- Aorta**, perforation of, by swallowed foreign body: two specimens, 499
- Aortic aneurysm**, three cases of, 757
- Arabian gynaecological**, obstetrical and genito-urinary practice illustrated from Albucasis (M. S. Spink), 653

- Arabic literature**, an early mention of sleeping sickness in (Max Meyerhof), 670
- Arachnoiditis** (C. M. H. Howell), 33
cerebral forms, 37
effects in region of optic chiasma, 39
in the posterior fossa, 39
on cortex cerebri, 40
spinal forms, 35
- Arm**, tonic spasm of, ? effect of encephalitis, 393
- Artery** of retina, central, and its branches, occlusion of, clinical study of fifty-four cases of (J. Minton), 285
- Arthritis**, chronic, case for diagnosis, 710
rheumatoid, vitamin C in relation to, 1045
- Arthrodesis** in young children (M. Forrester-Brown), 432
indications for, 434
technique, 435
- Arthrogram** to show extent of synovial cavity after synovectomy, 1264
- Ascaris lumbricoides** in alimentary tract, 1377
- Ascorbic acid**, parenteral administration of, in treatment of purpura, 720
- Ashworth, H. K.**—Discussion on neurological sequelæ of spinal anaesthesia, 1030
- Asphyxia neonatorum**, blood changes in, 1462
influence of drugs administered to mother upon, 1462
newer methods of resuscitation, 1464
Drinker respirator, 1465
inhalators, 1467
intravenous resuscitation, 1469
laryngeal intubation and insufflation, 1468
lungmotors, pulmotors and resuscitators, 1466
older methods of resuscitation, artificial respiration, 1463
mouth-to-mouth insufflation, 1464
resuscitation in, summary of important facts concerning, 1478-1481
the initiation of respiration in (R. A. Wilson, M. A. Torrey, and K. S. Johnson), 1461
- Asphyxiating gases**, effects of, on the respiratory system, discussion on, 1033
- Aural conditions**, effect of, on fitness for active service, discussion on, 1523
medicine, some problems in (S. H. Mygind and D. Dederding), 1485
- Automatism**, post-traumatic, 1081
- Avery, H.**—Chronic arthritis (case for diagnosis), 710
Splenomegaly with lipæmia, 711
and **Soraby, A.**—Three cases of the Laurence-Moon-Biedl syndrome, 388
- Ayoub, J. E. M.**—? Hemorrhage from vascular growth of orbit, 946
Uveo-parotitis, 947
- Bacharach, A. L.**—Discussion on nutrition and its effects on infectious disease, 1051
- Bailey, Hamilton.**—Ectopia vesicae, treated by implanting ureters into the bowel, 158
Mitral stenosis with congestive heart failure treated by complete thyroidectomy, 157
Paget's disease affecting left femur only, 157
- Ballantyne, A. J.**—Dysostosis cranio-facialis (with report of case), 280
- Bamber, G.**—Discussion on specific treatment of staphylococcal infections, 518
Epidermolysis bullosa dystrophica, 192
Phenolphthalein eruption, 1059
Phlebeetasia, 521
Urticaria pigmentosa, 1059
- Banister, J. Bright.**—Discussion on relative values of upper- and lower-segment Cesarean operations, 551
Intra- and extra-uterine pregnancy. Excision of extra-uterine pregnancy in 4th month, together with rudimentary horn of uterus, followed by full-term delivery of intra-uterine pregnancy, 562
- Barber, H. W.**—Changes in the pilosebaceous follicles and sebaceous secretion following herpes zoster, 975
and **Bishop, P. M. F.**—Keratoderma climactericum (Haxthausen) treated with oestrone, 738
- Bargen, J. Arnold.**—The medical management of chronic ulcerative colitis, 351
- Barium-air** three-stage enema, 1381
- Barris, J. D.**—Discussion on spa treatment of pelvic disorders, 1424
- Basal tumour**, ? case of, 391
- Basden, M.**—Carcinoma of vagina complicating a complete procidentia, 1483
- Bateman, D.**—Epi-tuberculosis showing also bone lesions, 711
- Bauwens, Dr.**—Discussion on short-wave therapy, 220
- Bayon, H. P.**—Transmissible splenomegaly of fowls or reticulo-endothelial leucosis ("erythroleucosis"), 377
- B.C.G.**, single and repeated intravenous injections of, lesions produced in organs of rabbit by: preliminary note (J. R. M. Innes), 887
- Bedford, Evan.**—Discussion on course and management of congenital heart disease, 700
- Belinoff, S.**—Simplified œsophagoscopy: œsophagoscopy without anaesthesia, without head-rest, and without assistance, 496
- Bell, A. C.**—Combined intra-uterine and extra-uterine pregnancy, 562
Intramural abscess of uterus following criminal abortion, 563
- Bennett, Izod.**—Discussion on protamine insulinate, 814
- Bentley, F. H.**—Discussion on injuries of peripheral nerves, 874
- Biggam, J.**—? Massive exudative retinitis, 46
- Bilharzial infection**, papillomata of both kidneys, ureters and bladder ducts, 451
- Biliary cirrhosis** with cyanosis and finger-clubbing, 406
- Birth palsy**, 869
- Bishop, P. M. F.**—Discussion on the present position of hormones in obstetrics and gynaecology, 274
and **Barber, H. W.**—Keratoderma climactericum (Haxthausen) treated with oestrone, 738
- Bjorkman, S.**—Bronchosprometry and its clinical application, with a short account of bronchial catheterization, 477

- Blackmore, H. S.**—Air-raid precautions, with special references to their medical aspects, 469
 Discussion on effects of asphyxiating gases on the respiratory system, 1033, 1037
- Bladder** contents, expression of, by pressure and massage, after injury to spinal cord, 1236
 malignant growth of, transplantation of ureters into pelvic colon with total cystectomy for (based on seven successful cases (B. Ward), 137
 treatment of, in spinal injuries in War (Sir J. Thomson-Walker), 1233
- Blegvad, N. Rh.**—Discussion on the problem of early laryngeal tuberculosis, 221
 modern views of concussion of the labyrinth, 321
- Blindness**, "post-influenzal," two cases of, 704
- Bloomfield, A.**—Case of primary carcinoma of Fallopian tube, 52
- Bedmar, J.**—Discussion on the peripheral circulation in chronic rheumatism, 621
- Bone**, malignant tumours of, discussion on, 781
 Paget's disease of, affecting left femur only, case of, 157
 shortening for inequality of length in the lower limbs (R. Brooke), 441
- Bone**, tumours in which the first radiographic signs are changes in the cancellous structure, 791
 is localized area of osteoporosis, 785
 is localized sclerosis, 787
 tumours producing no change in, 783
- Bourne, A.**—Discussion on relative values of upper- and lower-segment Cesarean operations, 557
- Bowman's** membrane, hemispherical formations in, 701
- Boyle, H. E. G.**—Discussion on choice and technique of anaesthetics for nose and throat operations, 924
- Boys, L.**—Discussion on spa treatment of pelvic disorders, 1421
- Brachial** plexus, traction lesions of, 869
- Brailsford, James, F.**—Discussion on malignant tumours of bone, 781
- Brain, R. T.**—Fox-Fordyce disease, case of, 1336
 Keratosis punctata, 198
 ? Lichen planus: case for diagnosis, 1060
 Mycosis fungoides, 191
 Pseudo-xanthoma elasticum, 199
- Brain, W. Russell.**—Discussion on neurological sequelæ of spinal anaesthesia, 1024
 Megalencephaly, 391
- Brasher, C. W. J.**—Discussion on effects of asphyxiating gases on the respiratory system, 1037
- Breast**, partial amputation of, for early carcinoma, nine cases of, 166
- Brinton, D.**—Bilateral primary optic atrophy from glioma of optic nerves, 855
- Brockman, E. P.**—(1) Skiagram of three cases of protrusio acetabuli. (2) Case for diagnosis, 572
- Brockman's** operation for talipes varus resulting from defective tibial growth, 207
- Bronchial** catheterization, short account of; bronchspirometry and its clinical applications (P. Frenckner and Stig Bjorkman), 477
- Bronchiectasis**, early, chronic sinusitis with, case of, 708
 in children, relation of upper respiratory tract infection to (J. H. Ebbs), 1407
 in childhood, surgical treatment of, three cases illustrating, 399
 pneumonectomy for, four typical cases of, 760
 purpura associated with, 23
- Broncho-pulmonary** suppuration, bronchoscopertherapy in: its mechanism and results (A. Soulas), 492
- Bronchoscopy** therapy in broncho-pulmonary suppuration: its mechanism and results (A. Soulas), 492
- Bronchspirometry** and its clinical application, with a short account of bronchial catheterization (P. Frenckner and Stig Bjorkman), 477
 clinical results of, 484
 technique of, 480
- Bronchus**, adenoma of (F. J. S. Gowar), 673
- Brooke, R.**—Bone shortening for inequality of length in the lower limbs, 441
 The effect of removal of the patella for simple transverse fractures on the function of the knee-joint, 203
- *Brown, H. C., and Alston, J. M.**—The epidemiology of Weil's disease, 741
- Brown, J. W.**—Discussion on course and management of congenital heart disease, 698
- Buckley, C. W.**—Discussion on indications for use of radio-active thermal waters in Great Britain, 827
 on the peripheral circulation in chronic rheumatism, 620
- Burnell-Jones, H. S.**—Lupus vulgaris of nose under treatment with tuberculin, 26
- Burnford, J.**—Discussion on medical treatment of chronic ulcerative colitis, 361
- Burrell, L. S. T.**—Discussion on the problem of early laryngeal tuberculosis, 230
 on treatment of pleural effusions, 848
- Burrows, H. J.**—An operation for the correction of Madelung's deformity and similar conditions, 565
 Brockman's operation for talipes varus resulting from defective tibial growth, 207
- Bush, G.**—Influence of adjacent organs and tumours on the alimentary tract, 1387
- Burt, J. Barnes.**—Discussion on indications for use of radio-active thermal waters in Great Britain, 833
 on the peripheral circulation in chronic rheumatism, 620
- Butler, T. Harrison.**—Discussion on epithelial growths of conjunctiva and cornea, 1279
- Buxton, St. J. D.**—Discussion on prevention and treatment of ununited fractures, 993
- Cæsaræan** operations, upper and lower-segment, relative values of, discussion on, 551
 section, lower segment, advantages of, and results, 554, 555
 statistics and indications, 553

- Calculus, ureteric, large, 1079**
- Cambrook, J. D.**—Discussion on therapeutic methods of arresting hæmorrhage, 652
- Campbell, S.**—Chronic sinusitis with early bronchiectasis, 708
- and **Hardy, A. J.**—Actinomycosis of lung, 876
- Canada and U.S.A.**—Anæsthesia in, impressions of, 937
- Capener, N.**—Intractable sciatica due to prolapsed intervertebral disc, treated by laminectomy, 1262
- Capillaries in nailbed, condition of, in normal and rheumatic conditions, 616-619**
- Capps, F. W.**—Discussion on orbital cellulitis due to sinus infection and its treatment, 1404
- Carbon dioxide absorption from anæsthetic atmospheres (R. W. Waters), 11**
- advantages, 18, 19
- chemistry, 14
- controlled respiration, 20
- essential factors in application to clinical anæsthesia, 17
- historical aspects, 11
- technique, 18
- as index of respiratory impurity, 1541
- Carcinoma erysipelatodes, case of, 983**
- Carcinoma, seven cases of, showing result of treatment, 934**
- Cardio-omentopexy, angina pectoris treated by, 762**
- Carmichael, E. A.**—Occipital lobectomy, 553
- Carnivora, innervation of periodontal membrane in, 1358**
- Carpus, degeneration of, produced by use of a compressed air-drill, 210**
- Carswell, R.**—Lupus vulgaris of nose under treatment with tuberculin, 26
- Carter, J. A.**—Three cases illustrating surgical treatment of bronchiectasis in childhood, 399
- *Carver, J.**—Observations on genito-urinary tuberculosis, 1429
- Specimen of: (1) Large adenoma of kidney with hæmorrhage into growth. (2) Carcinoma of ureter with hydronephrosis and secondary growths in bladder. (3) Multiple papillomata filling pelvis of kidney, 453
- Cass, E. E.**—Two cases of ocular torticollis, 1264
- Cat, innervation of periodontal membrane in, 1358**
- purpuric conditions in, 725
- Catheter, indwelling or tied-in, use of, in treatment of bladder after injuries to spinal cord, 1238**
- Cattle and sheep, paratuberculosis in (G. W. Dunkin), 83**
- purpuric conditions in, 724
- Cauda equina, lesions of, following spinal anæsthesia, 1008**
- Cawthorne, T.**—Discussion on effect of aural conditions on fitness for active service, 1531
- Cellulitis, orbital, due to sinus infection, and its treatment, discussion on, 1397**
- Cerebellar lobe, left, tumour of, 395**
- Cerebral pathology, diagnosis of, the electro-encephalogram in, 578**
- Cerebral tumour, the electro-encephalogram in cases of (W. Grey Walter), 579**
- Cerebro-macular degeneration, ? case of, 388**
- Cervix, carcinoma of, complicating procidentia uteri, two cases of, 1343**
- circumscribed polypoid sarcoma of, 49
- Challis, J. H. T.**—Discussion on choice and technique of anæsthetics for nose and throat operations, 929
- Chauffard-Still Syndrome (Feltz's syndrome), 932**
- Chick, H.**—Discussion on nutrition and its effects on infectious disease, 1042
- Childhood, early, otitis media in, discussion on, 1293**
- Children and adolescents, internal derangement of knee in (H. A. T. Fairbank), 427**
- diseases of, relation of the ear, nose and throat to (B. Morgan), 1415
- early bronchiectasis in, relation of upper respiratory tract infection to (J. H. Ebbs), 1407
- normal hearing of, measurement of, 1497
- young, arthrodesis in (M. Forrester-Brown), 432
- Chloasma virginum periorale, ? case of, 1057**
- Choanal atresia, unilateral, in a woman, aged 23, 917**
- Chondro-osteo-dystrophy (Brailsford-Morquio type), case of, 160**
- Choroid, sarcoma of? Retinitis exudativa externa? case of, 948**
- Choroidal growth, ? case of, 947**
- sclerosis, peripapillary, two cases of: a familial group, 286
- Choroiditis, juxtapapillary (Jensen), case of, 948**
- tuberculous or metastatic, case of, 706
- Christie, R. V.**—Discussion on effects of asphyxiating gases on the respiratory system, 1035
- *Circulation, peripheral, in chronic rheumatism (G. D. Kersley), 611**
- Circumflex nerve palsy in subcoracoid dislocations, 864**
- Cirrhotic, with jaundice: cholecystgastrostomy, 125**
- Cirsoid aneurysm involving tongue and floor of mouth, 709**
- Cleft palate, case to illustrate a method of stabilizing a denture by means of a gold jacket crown, 1253**
- Cleido-cranial dysostosis, case of, 882**
- Cleminson, F. J.**—Discussion on labyrinthine reactions and their relation to the clinical tests, 914
- Coal-mining, Weil's disease and, 750**
- Cockayne, E. A.**—Gargoylism (chondro-osteodystrophy, hepatosplenomegaly, deafness), in two brothers, 104
- Myositis ossificans progressiva, 162
- Colitis, mucous or mucomembranous, 1215**
- ulcerative, 1215
- chronic, ætiology of, 351
- diagnosis of, 355
- medical management of (J. A. Bargen), 351
- pathology of, 354
- treatment of, 356
- Colon, diseases of, age and sex incidence of, 1212**
- cancer, 1218
- constipation in, 1213
- diverticulosis and diverticulitis, 1216

- Colon**, diseases of, flatulence in, 1213
 general diagnosis in, 1212
 incidence of, 1211
 ptosis in, 1213
 redundancy of sigmoid, 1214
 incidence and treatment of (Sir E. Spriggs), 1211
 volvulus, 1215
 investigation of, special methods of, 1381
 pelvic, transplantation of ureters into, with total cystectomy, for malignant growth of bladder, based on seven successful cases (B. Ward), 137
- Coltart, W. D.**—An early case of dyschondroplasia, 202
- Comparative** medicine and its relation to the study of tropical medicine (P. H. Manson-Bahr), 237
- Complement-fixation** test in diagnosis of paratuberculosis of cattle and sheep, 87
- Concussion**, after-effects of, 1081
 clinical features, 1081
 of labyrinth, modern views of (N. Rh. Blegvad), 321
- Conjunctiva** and cornea, epithelial growths of (E. F. King), 1273
- Conus** medullaris, lesions of, following spinal anaesthesia, 1008
- Copeman, W. S. C.**—Discussion on the peripheral circulation in chronic rheumatism, 622
- Corbett, R. S.**—Discussion on medical treatment of chronic ulcerative colitis, 362
- Cornea** and conjunctiva, epithelial growths of (E. F. King), 1273
- Corneal** dystrophy, three cases of, 389
 ulceration, delayed, following mustard gas burns, 949
- Corsi, H.**—Lichen planus associated with atrophy of nail matrix and hair follicles of scalp, 198
- Cortical** sclerosis, symmetrical, localized, in an infant, 1095
- Cow**, infection of, human infections associated with, 951
- Cowell, S. J.**—Discussion on nutrition and its effects on infectious disease, 1039
- Craniofacial** dysostosis (Crouzon's syndrome), case of, 1187
- Critchley, M.**—Colloid cyst of third ventricle, 850
 Discussion on neurological sequelae of spinal anaesthesia, 1007
 Paget's disease of skull associated with a pituitary neoplasm, 849
 and **Greenfield, J. G.**—Jakob's syndrome (senile dementia with Parkinsonism), 1100
- Crohn's** disease, case of, 1375
- Crooke, A. C.**—Three cases of eunuchoidism, 1199
- Crouzon's** syndrome (craniofacial dysostosis), case of, 1187
- Crowe, H. W.**—Discussion on nutrition and its effects on infectious disease, 1051
- Cubitt, A. W.**—Discussion on urinary antiseptics, 508
- Cumberbatch, E. P.**—Discussion on short-wave therapy, 211
- Cumberlidge, W. I.**—Discussion on operative treatment of uncomplicated inguinal hernia, 531
- Cystectomy**, total, with transplantation of ureters into pelvic colon for malignant growth of urinary bladder (based on seven successful cases) (B. Ward), 137
- Cysticercosis**, case of, 577
- Cystoscopy**, value of, in diagnosis of renal tuberculosis, 1437
- Cystotomy**, early or prophylactic, in treatment of bladder after injuries to spinal cord, 1238
- Dalrymple-Champneys, Sir W.**—Discussion on air-conditioning, 1550
 transmission of Brucella infections, 840
 Remarks on snake venom, its source, method of collection and uses, 1453
- Davenport, C.**—Purpuric conditions in animals, 723
- Davidson, L. S. P.**—Discussion on purpuric conditions in man and animals, 715
- Davidson, M.**—Discussion on therapeutic methods of arresting hæmorrhage, 647
- Davies, J. H. T.**—Hæmolympangeioma, 197
- Davies, T. E.**—? Choroidal growth, 947
- Davis, E. D. D.**—Discussion on effect of aural conditions on fitness for active service, 1529
 on orbital cellulitis due to sinus infection and its treatment, 1397
 on physical aspects of tinnitus, 1518
- Deaf** children; ages of incidence of deafness, 1495
 audiograms of, special cases of, 1503
 causes of deafness in, 1496
 hearing and speech in (P. M. T. Kerridge), 1494
 test results with, 1500
 tests used for, 1496
 incidence of, 1494
 proficiency in speech in, 1507
 specific fevers causing the deafness, 1496
- Deafness** after radical mastoid operations, characteristics of, 1486
 after suppurative otitis media, characteristics of, 1487
 in otosclerosis, characteristics of, 1486
 of syphilitic and traumatic origin, characteristics of, 1487
 perception, characteristics of, 1485
- Decompression** chamber, description of, 1002
et seq.
- Dederding, D., and Mygind, S. H.**—Some problems in aural medicine, 1485
- De Kleijn, Dr.**—Discussion on labyrinthine reactions and their relation to the clinical tests, 914
- Denny-Brown, D. E.**—Mild eunuchoid giantism, 857
- *Dental** anaesthesia, vinyl ether anaesthesia for (V. Goldman), 891
 cyst, large, arising in left maxilla and obstructing the nose, 1252
 (right mandible), 1250
 extraction, acute osteomyelitis and death following, 1241
- Dermatomyositis**, ? artefact, case of, 1337
 case of, 109, 195
- Descemet's** membrane of left cornea, birth rupture of, 390

- ? **Devic's disease** retrobulbar neuritis, case of, 394
- Diabetes**, protamine insulin in (H. C. Hagedorn), 805
- Diaphragmatic hernia** of traumatic origin in a child, 758
- Diaphyseal aclasis**, case of, 110
- Diet**, raw vegetable, in chronic rheumatic conditions, therapeutic trial of (D. C. Hare), 1
- Diphtheria**, active immunization against, by the combined subcutaneous and intranasal method (C. Jensen), 1117
- Diphtheroid ulceration**, case of, 1059
- Disease**, cause of, milk as a factor in, discussion on, 951
- Dislocations and fractures**, nerve injuries accompanying, 864
- Displacements** of adjacent organs, influence of, on alimentary tract, 1387
- Distichiasis**, familial, two cases of, 390
- Diverticulitis**, 1216
- Diverticulosis**, 1216
- Dix, V. W.**—Grawitz tumour of unusually low malignancy, 459
- Papilloma and intussusception of ureter, 456
- Dobbs, R. H.**—Malrotation of intestines in a child aged 9 months: cured by operation, 404
- Two cases of pyloric stenosis treated with Eumydrine, 1193
- Dodds, E. C.**, Discussion on the present position of hormones in obstetrics and gynaecology, 263
- and **Noble, R. L.**—The action of pituitary extracts on gastric secretion, 815
- Dog**, purpuric conditions in, 725
- Dottridge, F. S.**—Mycosis fungoides, 191
- Dougal, D.**—Discussion on spa treatment of pelvic disorders, 1422
- Doyne, P. G.**—Congruous field defects due to congenital absence of nerve-fibres, 946
- ? Haemorrhage from vascular growth of orbit, 946
- Retinal changes in case of purpura, 946
- Uveo-parotitis, 947
- Drinker** respirator in treatment of asphyxia neonatorum, 1465
- Drugs** administered to mother, influence of, upon asphyxia of the new born, 1462
